Synopsis: Past live indicated through 12th cusp.- 12th cusp in different signs - Planets in 12th cup - Rahu and Ketu positions in different signs - Karmic Control of Planets - Dispositors - Rahu and Ketu- Aspects and Combinations - References in brief.

I. Past life through 12th house: 12th house indicates past life or some important past incarnation. All Karmic readings start with this house since one can see evil happenings in the present life being the results of evil past actions and the native pays in present life. Further, 12th house does not indicate past life immediate to present one but denotes the last important incarnation. The native has no control over 12th cusp and hence the events of past life are free from native’s control. If a sign contains both houses 12th and Lagna the native experiences those very results which he gives to others. In other words whatever he does/delivers to others, good or bad; the native receives the same.

The past life of a native can be predicted basing on the --

1) Sign occupied by 12th house in one’s chart as—

- i) Aeries: Mean mentality in past and has to pay Karmic debt by being born in Taurus Lagna becomes sensitive to pain and suffering.
- ii) Taurus: Miser, greedy & wealthy in the past. In this life, Gemini being Lagna pursue his mental objectives neglecting material possessions.
- iii) Gemini: Contribution to society is zero in past and with Cancer Lagna in this life he will pay motherly attention and treatment for all..
- iv) Cancer: Most evil placement of 12th Bhava, the native was completely unfaithful and irresponsible to home-life. So, in present life as Leo ascendant the native himself suffers with lack of love and attention from his home resulting mental tension and torture even though he may not have financial problems.
- v) Leo: In previous life he enjoyed and satisfied his physical appetite to the detriment of others. In this life with Virgo as lagna he will pay for his sins by serving others.
- vi) Virgo: In past life gave importance for trivialities and criticized others. In present Janma with Libra as lagna gives no importance for details and will himself be criticized for not doing justice.
- vii) Libra: In past cared for earthly pleasures. In this life with Scorpio as lagna the native always was misunderstood by others, .hence he has to strive to find the real meaning of life.
- viii) Scorpio: In the past life native did not share the knowledge of human equations so, I this life with Sagittarius as ascendant he has to inspire others.
- ix) Sagittarius: In past the native fully immersed in spiritual and philosophical theories thereby his knowledge was not shared and helped others. So, in present Janma with

Capricorn as lagna the native will have less spiritual qualities and concentrate on material achievements.

x) Capricorn: Ambitious and achieved material progress by trampling others in previous life. In present Janma with Acquarius lagna his ambition will not be the most important factor.

xi) Acquarius: Fooled others and shirking responsibilities in last life and in present one with Pisces lagna dependent and serves others.

xii) Pisces: In past the native tried to satisfy his greed and in this life with Aeries lagna he will pay back by serving others.

2) Planets in 12th house: A planet in 12th cusp modify the results if it is—

i) Sun: Fortunate and learn lessons properly, but it brings misery & sorrow through others and bad health. This tells advancement of soul in this life.

ii) Moon: Moody in past life and so in present life he will have trouble in dealings with others especially with women.

iii) Mars: Domineering both in past and present lives. But no one to boss which is psychic leading to lack of mental peace.

iv. Mercury: Nonsense talk in last life and hence in present life sensitive and hesitates to talk which is good for psychic communications.

v) Jupiter: Good as native acquires knowledge with soul advancement.

vi) Venus: Strong for spiritual and soul advancement but bad signifying secret love affairs.

vii) Saturn: Bad indicating the native inflicted his sour moods on others and exhibited meanness. In present life fulfills Karma through serious and deep feelings working in his mind.

viii) Uranus: Unreliable in past life and in present life the native will have psychic experiences through which he will benefit others.

ix) Neptune: Deceived persons always in past and hence in this life the native will be always faces unexpected unseen evil happenings.

x) Pluto: In the past the native was arrogant and exhibited egoism considering himself above all and hence in present life the native suffer sorrows and retributions in present life.

II. Karmic Control of Planets (KCP):

(1). **Dispositor of a planet** is the lord of the sign occupied by the planet. Karmic Control of Planets are the dispositors of Rahu and Ketu i.e., lords of the signs in which Rahu and Ketu are posited and control one's Karma. The present and future life of a native is the manifestations of previous life patterns. The effect of modification of dispositors of the nodes is more prominent than the dispositors of other 7 planets. The areas covered by Rahu are quite important in Karmic growth during one's own lifetime for utilization of past Karma. One can understand astrology deeper, how and why by studying minutely Rahu, Ketu and Karmic Control of Planets.

(2) **The nodes i.e., Rahu & Ketu:**

- i) represent the major key toward understanding one's life as a part of continued thread,
- ii) act as vacuum tube connecting the unknown past (Karma) and the known past.
- iii) bridge the gap between the previous forms of soul to the present soul structure.
- iv) are the points of soul of magnetism, one pulling towards the future and another coming from the past. The process of life is the medium of happiness for the individual so that the present birth is a symbol of his transition from the past to the future.
- v) enables to extrapolate the present soul structure and its possible connection to the future soul form.

vi) are Redeemer and Moksha Karaka respectively. If the nodes are afflicted the native will be destroyed and they are benefic without Yoga, the native will be ordinary. and
vii) Ketu is the inlet point for Karma, the dispositor is called as the “Incoming or past life KCP”. The planet ruling Rahu sign controls the Karmic distribution in the present life and hence known as “Karmic Distribution Control of Planet (Redeemer)”.

3. a) Aspects and Combinations:

i) The **aspects** made by KCPs and their position in the chart respectively have strong significance in Karmic understanding. The dispositors of nodes are more important than the nodes themselves. Knowledge of basic concepts of traditional Astrology is essential for understanding KCPs.

ii) **Combinations:** a. If KCPs are together they will make native greater, even if no other planetary combination i.e. Yoga is present. If this Yoga is afflicted the native will be great but destroys him. Ex: Bhutto, John.F Kennedy etc.

b) Any **planetary combination** has given rise to Raja Yoga and if it is associated with KCPs, the power of this Yoga will get enhanced. Ex: President Marshal Tito, President Rajendra Prasad.

c) **Difference between Incoming and Distribution of KCPs**—Raja Yoga helped by Ketu will make the native great but will destroy him also. But when Rahu is involved with Raja Yoga and unaffiliated, the native enjoy powers lifelong until death.

d. If an event takes place in the lives of group of people, it must be available in all charts of the people involved because it is due to Karmic ties from their past lives.

e. If the person is of royal birth and his Raja Yoga afflicted by the KCPs, the native will not be able to enjoy the royalty for long period.

f. If the person is humble and ordinary and his Raja Yoga enhanced by the KCPs, he will become great. Ex: President Giri, Sanjeeva Reddy, AJ Abdul Kalam

g. If Raja Yoga is helped by Ketu, it will make the person great but will destroy him also. But if Rahu is involved and Raja Yoga is unaffiliated the native enjoys power lifelong till death.
