Astrological analysis – As per KP system

Principle: Accident is indicated by 8th bhava- if star lord of 8th cusp sub lord –

- if connected to 6th – sickness after accident;
- if connected to 12th hospitalization;
- if connected to badhaka/maraca sthanas may result in death if no longevity is granted in natal chart otherwise it may result in permanent disability if longevity is granted.

In the chart referred above

- ü 8th cusp sub lord SATURN is posited in the star of MARS and sub of SUN.
- ü At birth time MARS is occupant of 9th Bhadhaka for Taurus (fixed) sign lagna.
- ü SUN is occupant of 12th bhava.
- ü Mars aspecting 12th and Sun aspecting 7th.
- ü Mars and Sun are also connected to 6th bhava through Ketu who is occupant of 10th.
- ü This indicates the death of the native due to accident.

Principle for: Longevity - span of life – Lagna sub lord

- if connected to first group i.e., 1/5/9 bhavas is long life –
- If connected to 2nd group i.e., 6/8/12 bhavas -short life-
- if connected to both groups a medium life.

In the chart referred above

- Lagna sub lord Jupiter is connected to both the groups i.e., 1-5-9 and 6-8-12.
ñ 1st - Through Ketu (pco); 5th - as pcbl; 9th -through Ketu (pcbl) and
ñ 6th -through Ketu (occupant); 8th - bhava lord; 12th - aspect on Mars Bhava lord.
- As Jupiter is connected to both groups medium life is granted.

But, Native died in 9th year which is considered as in the span of short life.

Thus, the **following formula** is applicable in the case under study--

- ü If Star lord of 1st cusp sub lord – connected to badhaka sthana / maraka sthana the life will be short and not for many years.

Following are the observations in the given chart:

- The 1st cusp sub lord Jupiter is in the star and sub of Mercury – who is lord of 2nd and is Maraka- for Taurus lagna.
- Added to this Mercury is aspected by exalted Mars lord of 7th – another maraka lord.- for Taurus lagna.
- Mercury is conjoined with Venus and is in Venus star – hence death occurred in the sub-period of Venus in the Mahardasa of Saturn – Saturn is 9th lord i.e., badhaka lord for fixed sign -Taurus lagna.
- 1st cusp sub lord Jupiter -has also become malefic with connection to maraka sthana i.e., as 2nd as occupant and as bhava lord of 8th bhava a dushthana.
- Jupiter with 8th lord ship (a functional malefic) has 5th aspect on 7th bhava a maraka sthana
- Jupiter has become benefic with 11th bhava lordship and as star lord of Moon. With Jupiter aspect on Moon and 11th bhava native survived during the Jupiter dasa i.e., commencing at the birth time. But Jupiter dasa was only for about 7 months

Native died on 31st jan.2011-at 9th year of age -during the Saturn x Venus x Venus x Saturn –

Natal and transit positions of dasa, bhukti lords are as follows.

- ñ Saturn dasa is Second mahardasa from birth time. –
- ñ Saturn dasa lord -in birth chart - is the lord of badhaka sthan (i.e., 9th lord for Taurus lagna) and Saturn is occupant of 1st bhava (lagna is weak); Pco of 9th and bhava lord of 9th and 10th
- ñ Saturn is in the star of Mars – who is 7th and 12th lord and occupant of 9th a badhaka sthana.
- ñ At the time of accident (25th jan.) and at death time (31st jan) transit Saturn was in Moon star – Sun sub – In birth chart Moon is 3rd Bhava lord and in the star of 8th lord Jupiter - Saturn connection with 3rd and 8th is indicating death due to accident.
- ñ Transit Saturn in the sub lord Sun who is connected to 12th as occupant in birth chart.
- ñ Moreover, transit Saturn started retardation on 27th Jan 2011 i.e., in between the date of accident and date of death – while the boy was in Coma due to accident.
- ñ Venus is bhukti lord –In birth chart - Venus is 1st and 6th lord - 6th is dusthana – Venus is in conjunction with Mercury - 2nd (maraka) lord and both are aspected by Mars 12th and 7th lord Mars (4th aspect):: Venus and Mercury conjunction is also aspected by Jupiter (8th lord) with 9th aspect.
- ñ At the time of accident and at death time the Transit Venus was in 7th bhava –as maraca sthana from lagna. At the time of accident Transit Venus was in scorpio in the star of Mercury (2nd lord maraca lord in natal chart) and at the time of death transit venus was in Ketu star – 6th occupant in natal chart and Ketu also represent Sun who is occupant of 12th in birth chart.

Below is the analysis in a tabular form:

At death time- Saturn X Venus X Venus X Saturn from 13 th Jan.2011 to 13 th Feb.2011			
Death time Dasa -Bhukti lords connections at birth, accident and death time			
Dasa/Bhukti	At birth time	At accident time	At death time
Saturn (1 st and 4 th level lord)	1)PCO and BL of 9th ; PCBL of 12 th 2) in the star of Mars-9 th occupant and 7 th lord and 12 th lord. 3) Occupant of Lagna.-weakening lagna.	1)Transit Saturn in Moon star Sun sub (in birth chart- Moon 3rd BL and 8th PCBL & Sun was PCO and Occupant of 12th)	Transit Saturn in the same Star and sub as of accident time BUT retarded on 27th Jan 2011 i.e, after accident and before the day of death.
Venus (2 nd and 3 rd level lord)	1) Venus 6th PCBL and 6th BL - and also conjoined with Mercury 2nd lord -i.e., Maraka lord. & 2) Mars 7th and 12th lord aspecting Venus	Transit Venus in Mercury star – natal 2nd lord i.e., Maraka lord in Birth chart.	Transit Venus in Ketu star - in birth chart Ketu was 6th occupant and 9th PCBL. – Ketu was also representing Sun the 12 th occupant in birth chart.

Thus, - Death occurred in the conjoined period of maraka and badhaka significators while connected to 6/8/12 significators.
